Excellent Work Of Willits Police Is Reflected

Special Correspondence of The Press

WILLITS, June 14.—The various committees which have charge of the arrangements of our Frontier Days celebration, which will be held here July 2, 3 and 4, are now as busy as bees and the prospects are that the coming rodeo will be the largest and best ever held here. The new grandstand will seat more people than ever before and the other improvements which have been made at the grounds will make it much easier to keep the events in close succession. Several candidates are now in the field for "Sweetheart" and as all of them are popular young women and all are working hard it is now an even break as to which will be chosen. The Shell Oil Company has agreed to furnish the fireworks for an elaborate display on the night of the Fourth. The vacant lots opposite the park will be used for the men who will have charge of the fireworks and the park and Commercial street will provide ample space for all citizens and visitors to witness the display. This will be the largest and best display of fireworks ever seen here and Hank Haehl, local manager of the company, was instrumental in getting it.

No Firecrackers This Year.

Some years ago the city council passed an ordinance prohibiting the sale of firecrackers and similar noise-making and fire-hazard material within the city limits and this year our police department has been instructed to see the ordinance is strictly enforced. On account of the late rains there is an unusually heavy growth of grass on all vacant lots which is now drying up and a little carelessness might cause a fire that would do much damage.

Attorney Job Still Vacant.

Frank Taft's resignation as city attorney has been accepted by the city council. No appointment has been made yet and there are several applicants for the position. Attorney Taft will hold the position until his successor is appointed.

FUNDS GOTTEN FOR THE ROAD

Round Valley Sacramento Forest Highway Provided For

Supervisor Duane Bittenbender when here yesterday from Willits stated he had received a letter from Congressman C. F. Lea stating Mr. Lea had gotten an appropriation of $20,000 inserted in the Forestry Bill and the amount would be used for reconstruction of the Round Valley-Sacramento road through the forests between the two points. Last winter's storms did much damage to the road.

VICHY SPRINGS DOING NICELY

Mr. and Mrs. Robt. Salzberger, who last year leased Vichy Springs, are revolutionizing the resort. An entire renovation of the premises has resulted. The nicest dining room service imaginable prevails, home cooking being specialized in, and a most inviting lounge is operated. The Vichy water baths are just as refreshing as they have always been. If you have not been over to Vichy Springs this summer, go now.

Frank C. Clarke, President of the State Woolgrowers Association, stopped off here Saturday after having attended the field day in Anderson Valley.

MOTORED TO RENO

R. F. Mazzoni went to Reno today and will return tomorrow accompanied by Mr. and Mrs. L. Layman and daughters Shirley and Laurel, who will enjoy a visit at the J. E. Layman home the next two weeks.

BAN FIREWORKS

About the city there are many lots on which high, dry growth is standing and which are an inviting menace to fires. The city authorities should at once make a prohibition against sale of firecrackers and noise producing fireworks on the Fourth of July. The danger of a carelessly caused fire is too great to allow any chances to be taken.

Machine Recovered In An Orchard South Of The City

Andrew Williams, a local Indian laborer, who was arrested one night last week by Captain Austin Rawles and jailed on a drunk driving charge, was released Wednesday on payment of the $60 fine levied by Justice Will Van Dyke.

Saw An Opportunity.

The prisoner's car was parked in front of the jail while the owner was being booked and Floyd Potter, another Indian, envisioning, perhaps, an opportunity for a season of free wheeling, while Mr. Williams was in the toils of the law, was making off with it when Captain Rawles appeared and gave chase.

Found The Auto.

The car was hidden in an orchard south of town and recovered next day. Mr. Potter was arrested and held for investigation for grand theft, but later released without charges being filed.

SICK MAN DIED IN A BURNING CABIN TUESDAY

Victim Was Trapped While Asleep Theory Of Employer

TRIED TO REACH DOOR

Probably Was Smoking And Set Fire To The Bed Clothes

HAD BEEN SMOKING

Those who investigated the cremation of Emanuel George in his cabin on the Cohen premises are inclined to the belief the unfortunate man had been smoking a cigarette, had fallen asleep and the cigarette set the bedding afire.

Monday afternoon Emanuel George, whose family reside, in Santa Rosa and who has been employed, off and on, the past three years by Cohen Brothers here, complained of being sick. Dave Cohen got some medicine for him and Mr. George went to a cabin he had been occupying 150 feet back of the Cohen store, saying he would rest a few hours. At 7:30 o'clock Dave Cohen looked in on the ailing man and discovered he was asleep. That was the last time Mr. George was seen alive.

Discovered Fire.

Early Tuesday morning neighbors saw smoke arising in the vicinity of the cabin, but presumed it was caused by someone burning rubbish. At 6:30 this morning Dan Cohen, who was moving about the premises, heard a crackling noise and, upon investigating, saw the interior of the cabin occupied by Mr. George was on fire. Mr. Cohen, at once, turned in an alarm.

Victim Cremated.

When the fire department effected an entrance to the cabin Mr. George was found lying on the floor, with his head against the door. His body was almost entirely cremated. It is probable Mr. George, discovering his plight, tried to get out of the cabin, but was overcome before he could do so. Relatives of Mr. George in Santa Rosa were notified. It is believed, because of the condition of the body, Mr. George will be buried here. Those who knew the victim, speak of him in high terms, his charity being an outstanding virtue.

Nearby Property Damaged.

The fire caused some damage to property of the Diamond Match Co., located in the rear of the Cohen store.

LOCAL LAWYER HAD SIGHTS UP IN FEE AWARD!

Hale McCowen's Idea Of Court Compensation Upset

BANK SEEKS RETURN

Supreme Court Finds Wessels Fee Was Excessive One

The Bank of America, guardian of the estate of Raymond Copsey, incompetent World War veteran, has begun action against Lena Copsey, the former guardian of her brother's estate, to recover the $4000 fee paid by her to the late Attorney A. L. Wessels. The American Surety Co., of New York, with which Miss Copsey is bonded to the extent of $18,000, is made a defendant in the suit.

Basis Of Claim.

The bank was made guardian of the estate in September, 1935, after Miss Copsey had resigned, and after the Veterans Administration had begun action contesting the fee as exorbitant and unlawful. The $4000 was awarded Attorney Wessels for services rendered in securing for the veteran approximately $12,000 war indemnity insurance and the Veterans Administration based their contest on a Federal statute which sets a fee of $10 for such service.

Said Fee Was Fair.

Before the award was made, in open court, the judge asked Hale McCowen and others if the fee asked by Attorney Wessels were a fair one and Mr. McCowen is said to have informed the court it was.

Sum Held Excessive.

Extensive litigation has carried the matter through the highest court of the state and to the United States Supreme Court, which refused to entertain the motion for appeal. The Supreme Court of California has declared the fee excessive, and the Bank of America is now seeking a return of the money to the estate for which it is guardian. Miss Copsey carried a bond of $4000 with the Surety Company when the indemnity insurance was awarded her brother and an additional bond of $14,000 was ordered. Neither bond has been canceled, complainant asserts.

MANY GOING

The benefit dance of the Hopland American Legion Post Saturday night next promises to be more largely attended than anticipated. A crack orchestra and an Italian supper are features of the affair to be at the high school auditorium.

Judge J. C. Hurley, candidate for nomination for the office of judge of the superior court, was called to Fort Bragg Friday.

WHAT WILL COME NEXT?

When will the Roosevelt administ ration begin to see the taxpayers have their backs to the wall? Because this is a political year, a runner-up for the National election, the man without a job has become the major political issue of the hour.

There are 20,100,000 persons on the relief rolls of the United States—7,500,000 fewer than during the worst crisis of February, 1934, and 6,100,000 more than the September, 1937, low. This is the time of year when the situation of the man without a job should be improving, but instead it is getting steadily worse because of the business recession, so much worse that a fourth of the states are embroiled in controversy or legislative preparations because of it. One in every five persons in Indiana is on relief; one in every 14 in New Jersey. Whole counties are insolvent in Minnesota. Ninety-seven per cent of the total population of one county in North Dakota is unemployed. WPA rolls are rising sharply in Georgia when they should be falling seasonably 25 per cent. Farms are being sold for taxes in parts of Wisconsin.

The story behind the unemployment is the same throughout the country. Mills and mines are closing. Curtailment of the cotton crop has reduced jobs. Lumber mills are overstocked. The railroads want to cut pay scales 15 per cent, and Secretary Roper of the Department of Commerce says he can see no immediate upturn despite items like United States Steel's $80,000,000 expansion program in five states (Pennsylvania, Ohio, New York, Missouri, Alabama) and WPA's purchase of 75,500,000 yards of textiles for relief sewing shops.

To try to stop the backslide, the lower house of Congress passed President Roosevelt's $3,000,000,000 relief bill, which Democratic leaders said would give jobs to 3,500,000 or 4,000,000. WPA will get $1,250,000,000 for the seven months beginning July 1. This is $178,571,000 a month, far above the average for the last 16 months when WPA expenditures ranged from $99,365,088 to $166,021,725. To this Federal appropriation, states and local governments will add their millions, in varying ratios from zero to more than 50 per cent. What the total is, it is impossible to learn; no agency seems to know what other agencies are spending.

Claiming that, while there is $2,000,00 worth of taxable property in the proposed Potter Valley fire district, the chemical engine, which it was contemplated to purchase, could only operate in the immediate section of the community of Potter Valley, and the proposed district would, actually be but a fire protection agency for Potter Valley town, while the balance of the district embraced would have to pay the cost of the operation of the district, a protesting petition, it is understood, is being circulated and a protest will be made to the supervisors against creating it.

PLAN LIVELY POOL EVENTS

Lions Aquatic Circus - To Include Bathing Beauty Contest

Bathing beauties will be an innovation to the third Lions Club Aquatic Circus a week from Sunday at the municipal pool.

Provisions are planned to take care of the many Lions participating in the day's festivities, including a barbecue dinner at the barbecue pit from noon until 1:30 p.m.

IS IN A CAST

M. A. Carpenter is here from Elko, Nevada, where Mrs. Carpenter is in a hospital. Mr. Carpenter says, following the accident, Mrs. Carpenter was taken to the Elko Hospital where she now is and will be in a cast some time. Her eventual recovery is now almost certain to follow. Mr. Carpenter will return to Elko in a few days.

A Chance Meeting.

An article in a newspaper at Elko, Nevada, brought an old friend to call on Mrs. Carpenter, who is in a hospital there following a recent automobile accident. Mr. Carpenter, who returned to Ukiah Saturday, tells how the account of the accident was read by Mrs. Charles Pratt, the former Lily Langren, of Ukiah, whom he had known at school. Recognizing the name she called at the hospital with her husband. They too were traveling through Nevada.

Mrs. Carpenter is making an excellent patient and has never for a moment lost her spirits, being confident she will overcome the results of her accident, in all of which Ukiah, as an entirety, hopes she may be correct.

HE LEARNED HIS LESSON FROM THE LOWLY

JUST ONE OF THE PLAIN MEN—a sympathetic, scholarly type of the old school one so seldom encounters nowadays—is Judge James C. Hurley. Born a poor boy, in the sweat of his brow he earned his education—on a farm, in a sawmill, in the woods. Next he was a schoolteacher and then a lawyer. That is the path in life Judge James C. Hurley trod. No one has ever heard him utter an unkind word against anyone. Simply he has gone along his way. Modestly, faithfully, efficiently has he finished every public trust imposed upon him. His great charity permits him to see, but quickly to forget the frailties of others. No better lawyer is there in the county and yet James C. Hurley makes no attempt at ostentation. His natural modesty seeks retirement in preference to the plaudits of the public.

Judge James C. Hurley is possessed of the kindliest character. When he was district attorney and it was his duty to prosecute, no defenseless man accused of crime was taken advantage of—A compassionate presentation and charitable plea for only justice is reflected in every trial Judge James C. Hurley conducted for the state. Before that, when he was Justice of the Peace, mercy-tempered sentences were meted out to those who erred and came before him and many is the boy, now grown to manhood, in other days, when Judge Hurley was probation officer, who will tell you the patience and the kindness shown to him when, for some trivial, boyish offense, he was taken before Judge Hurley—how he advised him, worked with him, encouraged him.

And so it was when the Townsend movement came along. It would be many, many years before Judge James C. Hurley could, even if he so desired, take advantage of the benefits of that needed, and long-hoped-for law, but he saw in it something which, while it could not be achieved in its first-moulded form, would force greed and power in the end to make a concession with and bring about what it has today produced — The Old Age Pension — and, when the Townsend movement was unpopular and laughed at, Judge James C. Hurley, not because it meant a single thing to him, became a crusader for it and countless aged men and women who now enjoy social security remember it was Judge James C. Hurley, in the stress and storm of opposition, who held their banner high.

He will make a human-being judge; he will temper the meaning of the statute with the mercy of his great, kind heart; he will not attempt to render complicated legal rulings, but in the language that you and you and you and you understand, will say this is right and this is wrong. No litigant will go into Judge James C. Hurley's court, handicapped by the knowledge he has incurred his enmity, because Judge James C. Hurley has no unfriendly feeling for anyone he has ever met.

This poor boy, born over on the Mendocino coast, this ranch hand, sawmill worker, logger, school teacher, lawyer, whose vicissitudes in life are paramount to those of any man we know has every attribute necessary to make a considerate, impartial and brilliant judge because he learned his lesson from the lowly, from whom he came.

A STRANGE COINCIDENCE

THE CHEROKEE, IOWA, TIMES says it is a bit strange each election year conditions are found to be so bad as to require enormous expenditures of Federal money. And it is still stranger this urgency for relief and need for spending immense allotments from the public treasury seems to center chiefly in doubtful states and in districts in which the election outcome is considered uncertain.

Yes, it is peculiar. Of course no one would be so rash as to suggest this uncertainty as to election outcome might be the chief cause of the urgent need of spending. Surely those in authority would not think of using public money for campaign expenses—especially when it is so badly needed to pay ordinary running expenses of the government, now that the government is nearly forty billion dollars in debt and getting in deeper all the time.

And yet one cannot help but be a bit puzzled by the fact these periods of urgent and abject need so regularly coincide with the months immediately preceding election — and further that the size of allotments of public funds follows so closely the apparent uncertainties of election outcome.

An allotment of five or six billion dollars from the public treasury and its available resources, such as is being asked now, based on this strange coincidence of conditions would seem to indicate this year's election results are extremely doubtful.

GOOD FOR ALABAMA

IN THE DAYS OF THE KU KLUX KLAN, Alabama was a stronghold of this iniquitous organization and not infrequently since that benighted period of our history the spirit of the Klan has flared up in the state. There have been encouraging evidences of late, however, it has been quite effectively eliminated from the life of Alabama.

One of these signs is to be found in the fact Frank M. Dixon, who promised during his campaign to "drop the Kilby penitentiary on anyone who begins riding around in a nightshirt, frightening the countryside," has been given the Democratic nomination for Governor, which in Alabama is equivalent to election.

Mr. Dixon seems to be a person of parts. He served as an aviator in the World War and was decorated for bravery when he brought his plane down in safety following combat with a German plane after one of his legs had been so riddled with bullets it had to be amputated.

As a further evidence of Alabama's turn toward enlightenment, former Senator J. Thomas Heflin was defeated for the Democratic nomination for Congress from his district. As a member of Congress for many years, Mr. Heflin had a number of claims to distinction. Among other things, he was recognized as the most gifted story teller in either house. Nevertheless, tolerant Americans will always be pleased to learn he has been defeated for public office.

GRAPPLING WITH A REAL MENACE!

Sidelights of Sadness

Being incidents connected with California's State Prisons as observed by A. R. O'Brien, editor of The Republican Press, who is a director of the State Board of Prisons of California.

BEFORE AND BEHIND THE BARS

Almost every convict in San Quentin and Folsom has some money to his credit. A few have large amounts, others, small.

A prisoner, except those whose families are on relief, is allowed to spend $2 a month for little delicacies. In instances, where the cause is a justfiable one, permission to use a large amount is forthcoming, if the prisoner has it to his credit.

The other day the Prison Board got a letter from an inmate, reading: "I would like permisson to send $5 to (blank), an attorney in San Francisco, for the reason that I should like to have him pay me a visit in regard to some legal matters in connection with my case."

The board requested the prisoner to inform it what the attorney planned to do for him.

Then, hard upon receipt of the communication by the prisoner there came from the attorney this epistle:

"In conformity with the request of (Number Blank) now confined in San Quentin, I am requesting that you permit him to forward to me the $5 requested in his letter to you. I am conforming to your request asking my reasons for wanting the $5. I don't believe you have the right to ask them. However, I have been this man's attorney for a number of years, I am still working in his interests either towards a parole, pardon, or freedom on habeas corpus proceedings. This work requires my time, expenditure of my money in various ways and will require a visit to the prison in a short time, which will require the payment of money. Since a mere $5 is an infinitesimal proportion of money and time already expended and not paid for, his request is entirely reasonable. I would put my protest in a lot stronger language if it weren't that there might be repercussion against the poor devil behind the bars."

The unfortunate man is doing life for murder.

There was not an error in the trial of the accused.

Not one thing could this attorney do to get the inmate a parole.

Securing a pardon for him is simply out of the question.

The man has no friends, no relatives. He has to his credit in the prison the sum of $14.50. That pitiful amount is everything he will have to purchase any small tidbit or little nicknack he may crave throughout his life. Yet this lawyer would take from that poor fellow a miserable $5 and when his ghoulishness was prevented by the Prison Board he wrote the members an insulting letter.

There are offenders who are brought before the bar of justice and punished for preying upon their fellow men, when armed with a weapon, and there are others who appear at the same bar of justice, armed with lawbooks, and prey upon unfortunates who find themselves in distress, and are paid for it. The former are termed bandits and the latter are designated barristers, but, really, there is little in a name. If you could go along the dreary routine of prison work with me; if you only knew the constant warfare that is carried on by the Prison Board and the Wardens against these legal leeches who, by malodorous methods and intriguing ways, try to wheedle money from the hope-gone men, I think you would join me in my assertion that the difference between some of those who strut before the bar of justice and their brothers who slink behind the bars of prisons, in point of real character, is not so vastly different, after all.

Perhaps the latter have the edge.

EUCHARISTIC PROCESSION TO BE HELD AT ALBERTINUM GROUNDS

(Contributed)

At seven o'clock Sunday evening, June 19, the Procession and Benediction, in honor of the Divine Presence of Christ in the Sacrament of the Holy Eucharist, will take place in the flower bedecked gardens of the Albertinum Convent, a most fitting place for such a beautiful ceremony. It is the annual tribute of love and adoration to the Christ of the Crib, the Cross, and the Eucharist. The Holy Eucharist is a profound mystery, and therefore supposes a lively faith in discerning the Body of the Lord. It is a pledge of the most tender divine love and demands a corresponding love from human nature.

Act Of Adoration.

In religion there is not an act more sublime than the act of the adoration of the Christ of the Eucharist. In the language of St. Chrysostom, "The communion of the soul of the Christian with Christ in Holy Communion, makes us one body with Jesus—He dwelling in us and we in Him." The faith that is needed is the faith of which St. Paul speaks, saying, it is "the substance of things to be hoped for, the evidence of things that are not seen"—such faith, in the language of the Apostle, "renders captive the understanding, is the gift of grace and the beginning of justification."

Stands As At First.

Faith reposes with security upon the Rock on which Christ built his Church. Ages have rolled into the nothingness of time. Revolutions have burned at its base—storms have raged and spent their fury against it, as is evidenced today, but Christ still keeps sentinel over a sin-stricken world. The Christian religion is sublime, great in dignity and exalted in virtue, but without the Eucharistic King, all is darkness and error, the world a problem—man, a mystery to himself. With the Christ of the Eucharist, all is light and truth. The general public is invited to take part in the Sunday evening services of June 19, at 7 p.m. Reverend Father Irenaeus O'Sullivan, O. M. Cap., of St. Mary's Catholic church, will preach the sermon, "The Holy Eucharist," at the closing Benediction.

A more elaborate program than ever has been planned by General Chairman Roy Jones, C. A. Lindbergh, W. H. Brunner in charge of the water carnival, and E. A. Eversole managing the barbecue. A bathing beauty contest will be an innovation to this year's event.

SEA LIONS ARE VERY PLENTIFUL

The sea lion rookery at Sea Lion island, off Mendocino, is covered with cows and pups and the big bull lions are arriving every day from the northern waters. It is said they do not eat during the breeding season, which lasts six weeks. Most any day you can see a battle raging on the rocks. There are some very large bulls there now.

Sport Is There—Dangers Are, Too

(The Mendocino Beacon)

Joe Andre and a party of local fishermen took advantage of the fine, smooth weather and went out to the deep sea fishing grounds Wednesday. They returned with five nice fish. Mr. Andre was displaying the one he had a hard battle to land. It was a 33-pound blue cod and was one of the largest we have seen brought in. There probably have been larger ones landed, but this was an exceptionally fine specimen. A lot of good sport awaits the angler who would care to take chances in a small boat in an open sea.

AN ENTIRE ENGLISH COLLEGE CONSTRUCTED ON MAMMOTH "YANK AT OXFORD" SETS

From 600 tons of plaster, 164 workmen reconstructed Oxford for the screen. From their labors was evolved a college which Oxford has never seen before—Cardinal College—embodying famous characteristics of many of Oxford's world-known buildings, yet possessing an entity of its own. Necessarily fictional, Cardinal College is the scene of undergraduate Robert Taylor's adventures in "A Yank At Oxford," playing Sunday and Monday at The State Theatre. Although fictional, it will be recognizable as essentially Oxonian.

Follows Early Norman Plans.

In an art room at Denham Studios, five young men planned Director Lawrence P. Williams this reconstruction job. Together with his four associates, Art scoured Oxford. With camera and sketch-book they gathered their material, and on their drawing-boards at Denham, Oxford rose again. With modern instruments they redrew the plans that eleventh century Norman craftsmen conceived when Oxford first rose at the rim of the Cotswolds.

A Composite Of Institution.

Cardinal College came into being, a composite of all the finest features of Oxford's colleges, and so embodied that when seen on the screen it reflects the complete spirit of Oxford rather than that of one single institution. On 25,000 square feet of studio floor was built the largest indoor set the studios have ever created, the Cardinal College quad. The result of 30 scale-plans and infinite reseach, the quad is a blend of all Oxford quads with its grass center, ivy-covered massive stone walls, fountains, cobblestones, venerable archways, porter's lodge, leaden gutters, flowers and gravel pathways.

Show City's Peculiarities.

Other giant settings, meticulously planned from the originals, are the famous Oxford High Street for which city authorities loaned both omnibuses and taxicabs peculiar to Oxford. Even the city's style of lamp-post was transplanted to Denham.

You'll Recognize Oxford Here.

A 40-foot reproduction of world famous Magdalen College tower rose near the studios, and from other scale-plans the Magdalen Bridge and Tom Tower were constructed. The venerated college reconstructed for May Week barges anchored on the Isis were scenes on the River Colne. Famous college bookshops and ancient Oxford taverns all had their place on the construction schedule, and from chart and diagrams aged rafters in college halls, staircases, stained glass windows, coats-of-arms, crests and oak gates were manufactured.

Show Numerous Building Styles.

In bringing out the spirit of the city with its myriad styles of architecture, Director Williams and his men have produced Gothic Renaissance, Jacobean, Tudor, Georgian, Regency and Victorian building.

Will Celebrate Fourth Of July

The Point Arena-Manchester Farm Center is putting out posters advertising the celebration they plan for Sunday, July 3, at the Farm Center Fair grounds near Manchester. They will also have a dance Saturday evening, July 2.

Mr. and Mrs. A. R. O'Brien were at San Quentin Saturday when Mr. O'Brien attended a meeting of the State Prison Board.

COAST LOT TITLE MAY BE CLEARED

To clear title to Lot 12, Block 20, Fort Bragg, the estate of Eliza I. Walker will be probated June 17 through a petition filed by D. C. Smith, public administrator. Mrs. Walker died July 10, 1904, and Jerry Walker, her husband, has since died, leaving no known heirs and no will. Suit to quiet title will follow appointment of administrator.

Fred Loring was a countyseat caller from Willits yesterday.

STORM RELIEF FUND DIVIDED

Money Gotten From The State Will Do Great Good

Supervisors Pesula, Haehl, Bittenbender, Gordon and Pickle were on hand to attend the dinner of the Shoreline Highway Committee called by the Redwood Empire Association Friday.

Work Together.

There is one nice feature about the present board of supervisors—when any situation develops that may help out the county, all of the board members are found on hand, assisting.

Got State Money.

Last week the sum of $50,000 was provided by Governor F. F. Merriam to help Mendocino county repair the bridges and roads damaged by the storms of the past winter. The supervisors got together, as soon as the funds were secured, and divided the funds thusly:

For the First district, $3300 on the Hopland-Mountain House road.

For the First district, $6000 on the Ukiah-Boonville road.

For the Second and Fourth districts combined, $8000 on the Mendocino-Ukiah road.

For the Third district, $10,600 for the Laytonville-Covelo road.

For the Fourth district, $12,500 to be used from Westport to Leggett Valley.

For the Third and Fourth districts combined, $9000 on the Fort Bragg-Willits road.

HELPING TO GET WOODS FOR PARK

Newton P. Drewry, of the State Park Commission, was here Wednesday after having been in the north on Park business. Mr. Drewry is interested in Mendocino county acquiring Montgomery Redwoods and is working in conjunction with local and outside men with that object in view.

WPA Workers Get Sum They Asked

The 80 WPA workers who were to have struck Saturday last have been placated by the Government and, instead of a strike being called by the workers, the Government has granted their request for a raise in hour scale and hereafter they will get 45 cents an hour, instead of 35 cents as in the past.

AN EFFICIENT OFFICER

Ward M. Ries, of Fort Bragg, was here Wednesday. Ward Ries, while working under former Sheriff R. R. Byrnes and ever since, has made a fine record as a peace officer and he and Sheriff Byrnes ran down and convicted every offender of note who operated here while they trained together.

Len Michaelson, of The Republican Press force, is back after passing a week at Orr's Hot Springs which, Mr. Michaelson says, is well patronized and has heavy bookings throughout the entire season.

Faithful study and service of Campfire Girls the past year earned for them honors which were bestowed at the Council Fire held in the community clubhouse Wednesday evening, celebrating the anniversary of the organization and having as its theme "This Land Of Ours" in line with conservation projects. Entrance was to singing of "America The Beautiful" with Betty Dunham as pianist. Mary Lou Hildreth, flag bearer, presented the stars and stripes for the pledge of allegiance, which was followed by singing of "Wo-He-Lo For Aye" and the hand sign.

The prologue was given by Carline Hinds prior to the candle lighting ceremony performed by Mildred Tatman at the north, Mary Barbara Broaddus south, Phyllis Davis east, and Lorraine Thompson west. Lighting of the birthday candle was by Betty Heryford. A conservation playlet cleverly given by Quannacut group, of which Mrs. Ercole Chelli and Miss Alyce Finne are guardians, was well received.

Birthday honors for conservation merits were awarded Alice Claire Wilsey, Shirley Dumas, Victoria Chelli, Lenita Hughes, Nelda Varney, Eleanor La Porte, Betty Mae Smith, Betty Enright, Claire Purdy, Zelma Macklin, Patsy Pike and Barbara Balou. All girls who gave service at Christmas time by dressing dolls, making bean bags or singing carols received a green wooden disc, a local honor. Barbara Conley was especially honored by an award for writing a Campfire song.

Service honors awarded by Mrs. Karl Davis, past president of P. T. A. for those assisting at the P. T. A. nursery went to Barbara Conley, Betty Heryford, Mary Barbara Broaddus, Helen Salls, Betty Dunham, Geraldine Messick, Amy Melander, Carline Hinds; and to the following for selling tickets to the P. Millions For SAFE Grade Crossings

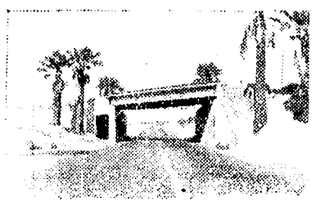
PHOTOS COURTESY MOBILGAS ROAD SCOUT



How state highway departments of Washington, Oregon and California are building SAFETY in grade crossings is illustrated by above pictures, supplied by General Petroleum Corp. Upper left—Celebrated Wilson underpass, and traffic lane separation, near Stockton, Calif. Upper right—Modern and substantial crossing on Coast Highway south of Seattle and Tacoma, and north of Portland. Center left—Pass under Santa Fe tracks on Atlantic, en route to Long Beach. Center right—Where highway crosses many tracks east of Los Angeles. Lower right—Colton underpass en route to Nevada and Arizona.

The $3,230,000 recently appropriated by the federal government for elimination of hazards at grade crossings in Washington, Oregon and California, is adding impetus to the program of the Pacific Coast states for building SAFETY into the highways.

Highway divisions of these states already have a large number of underpasses, overpasses and crossing protection improvements scheduled, according to advices reaching A. J. Donnelly, Northern California general manager of General Petroleum Corporation, who is taking an active interest in highway development.

"We understand that state highway departments are completing detailed plans and specifications for grade crossing improvements," says the Mobilgas official, "and that many contracts will be let within a short time. These projects will constitute a strong factor in reducing the number of fatal and nonfatal accidents, and will also add to the beauty of our highways, thereby attracting more motor tourists to the wonderful Pacific Coast region. The California State Automobile Association has renedered effective support in obtaining the appropriations.

"Already much grade separation work has been done in the past two years in the coast states. The character of the improvements and the results attained in making these arteries safer for travel has redounded to the benefit of our region through the appropriation of more funds for this purpose.

"The California highway division, for instance, has built 45 grade separations and widened two others in two years, at a total cost of $7,200,000, says information obtained from the state department of public works. Washington and Oregon have also aggressively conducted a similar grade crossing improvement program. Results have brought forth widespread favorable comment and greatly reduced the hazards of driving, while adding to the pleasure of motoring.

"Funds just appropriated by the federal government for further work of this type in the three coast states," concluded the General Petroleum official," are as follows: Washington, $773,000; Oregon, $584,000; California, $1,871,000."

Sentinels of Health

Don't Neglect Them!

Nature designed the kidneys to do a marvelous job. Their task is to keep the flowing blood stream free of an excess of toxic impurities. The act of living—itself—is constantly producing waste matter the kidneys must remove from the blood if good health is to endure.

When the kidneys fail to function as Nature intended, there is retention of waste that may cause body-wide distress. One may suffer nagging backache, persistent headache, attacks of dizziness, getting up nights, swelling, puffiness under the eyes—feel tired, nervous, all worn out.

Frequent, scanty or burning passages may be further evidence of kidney or bladder disturbance.

The recognized and proper treatment is a diuretic medicine to help the kidneys get rid of excess poisonous body waste. Use *Doan's Pills*. They have had more than forty years of public approval. Are endorsed the country over. Insist on *Doan's*. Sold at all drug stores.

"UNREAL REALITIES"

BIGGEST ROOM

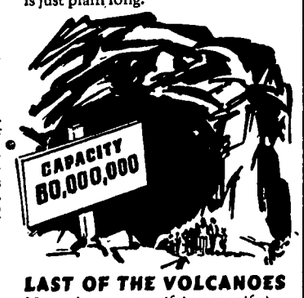
If people could be packed like sardines, nearly half the population of the United States could be contained in the "Big Room" of *Carlsbad Caverns, New Mexico,* at one time. This room is but one of many in the largest series of caverns yet discovered!

MORE THAN 4 RAILROADS

More miles of routes are served by Greyhound Lines and its connecting carriers than the four largest railroads in the United States combined! And with quantity goes quality as well, because Greyhound's schedules are frequent, comfort is the by-word, still it costs the traveler so little.

NO BARBER SHOP HERE

Members of the interesting cult known as the House of David have their community dwelling at *Benton Harbor, Michigan.* Newspapers have kept this odd Utopia in the rotogravure for many years—for the men never shave. Their beards are full grown—and they don't even compromise on a boyish bob, their hair is just plain long.



LAST OF THE VOLCANOES

Nature's most terrifying manifestation is a volcano spitting up fire and clouds of smoke and molten lava. When America was young, dozens of these "gateways to hell" lighted the skies and shook the earth—today only one volcano remains active in continental United States, *Mt. Lassen, in California.*

Drunken Driver Is Given A $50 Fine

Clarence Hanson of Fort Bragg paid a fine of $50 assessed by Justice Will Van Dyke last Wednesday and was released from jail where he had been held on a drunk driving charge. Captain Austin Rawles made the arrest on South State street where the Hanson car, headed south, was cutting curious capers on the concrete.

Ft. Bragg P.T.A. Has Disbanded

Mistook Bichloride For Headache Pill

Death lurked between two small bottles in the medicine cabinet at the home of Wallace W. McCreath, 28, in Napa. Suffering a severe headache and mistaking deadly bichloride of mercury tablets for aspirn, Mr. McCreath, whose bride of 10 months was visiting friends, was found when his father, Wm. McCreath walked into his son's house and found him writhing in agony from the effects of the poison. He had taken the fatal dose at least three hours earlier. Rushed to the hospital, he had only a brief flash of consciousness after a blood transfusion, in which he was able to speak to his wife, who had remained at his bedside during the four days he suffered before succumbing to the deadly poisoning. He is survived by his wife, Irma, daughter of Judge and Mrs. J. W. Woodruff, pioneers of Laytonville, and his parents.

TOY POODLES TO HELP FUND

Sick Woman Anxious To Do Her Part For The Ambulance

Two fluffy toy poodles of white wool, raised on their haunches to beg your attention to the Ambulance service fund, for which they are to be sold, stand in the window of the C. A. Bernhard store looking coyly out from their celophane coverings for patrons.

Made By Invalid.

The attractively made pets are the gift to the ambulance fund of Mrs. Josephine Busch, who made them while lying in her hospital room in San Francisco. Mrs. Busch was proprietor of a millinery and needle work store in Ukiah a number of years ago. In her hours of invalidism she has found this way of aiding a worthy project of her "home town." The poodles are dubbed "Duke and Wally."

Conditions Much Improved Today

B. H. Saunders, years ago a painter of Ukiah and a member of an old-time Mendocino county family, was here Thursday after having, with Mrs. Saunders, been on a vacation of two weeks. Mr. Saunders is employed at San Quentin, where a number of Mendocino county men have guardline jobs. More than 20 years ago Mr. Saunders entered prison service. At that time a guard got $65 a month and board and worked 12 hours. Now guards receive $120 and board and work eight hours. A raise in wages and reduction in hours was secured lately, largely through the work of Governor Merriam.

Were Prince Alberts

In the "nifty nineties," most United States senators wore Prince Alberts. The frock coat was a symbol of statesmanship and a beard was the mark of a man of maturity and substance.

THUGS ATTACK NOW REVEALED BY CONFESSION

Five Young Willits Men Are Jailed —Confessed

ARE OLD OFFENDERS

Excellent Work Of Willits Police Is Reflected

(Continued from Page One)

their annual outing there. Last week 20 of the older members came up to clean camp and the first contingent of campers arrived Monday. There are several hundred members of the San Francisco Boys Club and they are divided into groups, each of which has a two weeks outing in one of the most beautiful outing places in California. The camp site belongs to the Union Lumber Company and they lease it at a nominal rental, about one dollar per year. The boys have been coming to the camp some years and they are a clean and fine appearing lot of lads. The camp grounds are in the redwoods, about half way between Willits and Fort Bragg. The boys are given special rates by the Northwestern Pacific railroad and when a large contingent arrives several coaches are added to the Fort Bragg train. The camp is in charge of John Neubauer and several adults are stationed at the camp to look after their welfare.

Confessed Cunningham Robbery.

Will Baylen was caught in the act of stealing $1 from the cash register at the Associated Oil Company service station Thursday night and he then confessed and implicated five other young men in the holdup and beating of H. G. Cunningham last week. Officer Bill White then arrested Raymond Phillips, John Nelson, William and Lester Van Devere, all of whom, except Will Baylen, are members of the Camp Northwestern CCC group, and one other youth, George Wells, who was also implicated, has not been located. They were all locked up in the city jail and then taken to the county jail at Ukiah. The oldest of the group is said to be only 21 years of age and the others are minors. It is also reported they have all been in trouble before and are now on probation. Just what they will be charged with is not known at this writing but it will probably be "robbery and assault." An account of the assault and robbery of Mr. Cunningham appeared in The Press last week.

Consults City Specialist.

Sumner Dunham was taken to a hospital in San Francisco a few days ago for special treatment. He had been confined to his home for several weeks with a gastric trouble and our local physicians have turned him over to a specialist in that line.

Mrs. John Karas passed several days last week in San Francisco.

Getting Out Ties.

Will Standley has leased a fine tract of virgin redwood in Jackson Valley and now has a crew getting out split stuff, mostly railroad ties, which are in great demand. He will employ a crew of about 10 men, two of whom, Lou Hopper and Bob Timbell, are Willits men.

Opportunity For Marksmen.

A shooting gallery has been opened in the small room on the south side of Odd Fellows building by some parties from Sacramento.

Boy Scouts Convene.

More than 100 Boy Scouts are holding their annual Scout Camporee at the high school grounds here. The boys are from all the camps in Mendocino and Lake counties and are having a grand and glorious time. They enjoy all the usual Scout activities and contests and were entertained Saturday at Camp Northwestern where they were given a special luncheon which was sponsored by the Lions Club. Sunday the boys were guests of honor at the Baptist and Catholic churches, where special mention was made of the splendid training they are now receiving.

Neon Signs at City Limits.

Our Chamber of Commerce has ordered two Neon signs which will be installed at the south entrance to town on the Redwood highway. The signs will have the word "Willits" and from now on strangers will know what town they are passing through. This is something all towns ought to provide, especially where city limits almost join each other. The great idea is strangers will now know when they are in Willits and all of our people are anxious to make their stay as pleasant as possible so they will return.

MAY LOSE CAMP

There is a growing fear the CCC camp at Northwestern may be transferred from the Willits section to Russian River resort district this fall. Moves along that line have already been started.

Is Getting Better.

Monroe James, who has been confined to his home for some weeks, is now much better than he was and a few days ago was moved to the home of his son, Lou James, in Sherwood Valley.

Plenty Of Water Now.

An eight-inch well was bored last week at the Farley WPA camp and a plentiful supply of good water was secured. For a time water had to be hauled to the camp, although it is situated at a place that last winter was flooded.

New Commandant.

Captain Chas. K. Curtwright is the new commanding officer at CCC Camp Northwestern.. He succeeds Captain Mark Thomas, who will return to private life and resume the occupation of a civil engineer at San Jose.

Women's Club Installs.

Willits Improvement Club installed new officers at its last meeting. Mrs. E. M. Fish is the new president, Mrs. Sarah Upp first vice-president, Mrs. M. V. Baker second vice-president, Mrs. Flora Saxon secretary, Mrs. Neva Watson treasurer. Mrs. A. J. Fairbanks, who was the first president of the club, was honored guest. Since its organization about 25 years ago the club has been instrumental in having quite a number of civic improvements made and they have a club building that would be a credit to a much more pretentous town than Willits is.

Home Doubly Blessed.

Twin girls were born to Mr. and Mrs. Ralph Brown, June 4, and a baby boy was born to Mrs. Margaret Swensen the first of the week.

We'll Tell The World.

A caravan of 60 cars will leave here Sunday for a tour of Sonoma, Napa and Lake counties to advertise our Frontier Days celebration on our natal day.

Too Much Celebration.

Ambrose Pinza, who lives at Kekawaka, was in San Francisco celbrating last week and returned Monday on the night train. He kept on celebrating and got into several fights on his way here and had to be taken from the train by Officer Bill White. Mr. Pinza fell on the track and struck his head and was taken to Howard Memorial Hospital for repairs.

New Fire Equipment.

The city council has authorized the purchase of a new fire truck to take the place of an old Model T Ford that has outlived its usefulness. They have decided on a Chevrolet truck chassis upon which the equipment on the old car will be installed.

Had A Stroke.

Asa Davis, about 60, who lives east of Willits, suffered a stroke of apoplexy Friday and was brought to Howard Memorial Hospital. Dr. Raymond Babcock, attending physician, reported the stricken man slightly better.

All Are Busy.

Now that Mendocino county has received $50,000 of state money to repair damages done to roads and bridges last winter, extra crews have been put to work all over the county on the projects which were approved by a state engineer some weeks ago. Among the highways approved is the one that connects Willits and Fort Bragg and both Supervisors Bittenbender and Pesula have large crews at work removing slides, filling chuck holes and widening the highways. At this end of the highway the big flood washed out the shoulder of the road in several places adjoining the creek and these places will be protected by a bulkhead and riprap in order to restore all of the highway to a two-way road.

Abutment Is Damaged.

The next most important road project in this district is the one connecting Dos Rios and Covelo. Several crews are now working that road. Last winter the big flood damaged the east abutment of the Dos Rios bridge and a crew of six men is now making necessary repairs.

Granddaughter Marries.

H. B. Muir left for Berkeley to attend the wedding of his granddaughter, Miss Ora Thelen, which will take place today. The groom is Dr. Chas. Ranson, who is now taking a special medical course at a school in St. Louis and the young couple will make that city their home until he completes the course next year. The bride is the eldest daughter of Mr. and Mrs. Max Thelen and has been passing her summer vacations in Willits several years and is well known here. She is an accomplished and charming young woman and met her husband when they were both attending University of California several years ago. The groom is the son of a Modesto physician who has decided to follow in his father's footsteps and, after finishing the special course, he may return to Modesto and be taken into partnership with his father.

Died Day After Making His Will

William F. Stege, sole legatee of the will of Frederick Fisher, of Fort Bragg, has filed the document for probate and asks appointment as executor. The estate is $1200 in cash, some personal property and 36 acres of coast land, the total worth being approximately $2500. Mr. Fisher died June 3, the day after the will was signed. Names and addresses of heirs at law are unknown. The petition has been set for hearing June 24.

Goes To Truckee.

A. Bon will leave tomorrow for Truckee where he will engage in the saloon business. Mrs. Bon will remain here until after the Fourth.

Temporarily Free.

The eight youths who have been held on a battery-robbery charge were brought up from Ukiah, Monday, and had a hearing in Judge C. A. Larson's court. Police Officer "Bill" White swore to the complaint as he was the arresting officer and the man whom it is alleged was robbed and beaten is now in Los Angeles. No proof was offered at the hearing the youths were guilty of robbery and a new complaint was drawn charging them with "battery." Seven of the boys are members of our CCC camp at Camp Northwestern and they have been released on their own recognizance upon request of their superior officers pending the date set for trial. The other youth, Will Balen, is a Willits boy and not being able to furnish bail was taken back to the county jail.

Have Plenty Water.

Postmaster Roy Moran was down from Farley, Monday, and reports there are now 180 men in the WPA camp at that place. The crews are doing some splendid work and started working north from the east end of the Longvale bridge. The well bored recently is giving an abundance of splendid water.

Have A Girl.

Sidney Black, manager of The Toggery, was greatly elated Monday morning when he received word from Howard Memorial Hospital it was a big, bouncing girl. Mother and babe are doing nicely but Sidney is still up in the air.

Are At Conference.

Rev. and Mrs. H. J. Catterall are in Fresno where they are attending the Annual Conference of the Methodist church which is in session this week.

At Daughter's Home.

Mrs. D. M. Grant, a former well known resident of Ukiah who is now making her home with her daughter, Mrs. Tom Akins, was visiting friends near Chico last week when she had a severe sick spell. Mr. and Mrs. Akins motored over to the big valley and brought her back with them and she is now convalescent.

Mrs. Ruth Hughes, formerly Ruth Bartow, arrived from her home in Eureka a few days ago and is visiting her mother and other local relatives.

John Rose came in from Farley a few days ago for a short visit.

Mrs. F. W. Taft, of Ukiah, was the guest of Mrs. Kate Brown last week.

Norman Sawyers returned from San Francisco a few days ago. He is now a professional musician and has been doing orchestra work the past six months.

Miss Jane Babcock is home for summer vacation. She will graduate next year from Mills College, Oakland.

Mrs. Fred Rodgers entertained members of the Whist Club at a luncheon at Carson Inn Thursday afternoon.

Mr. and Mrs. Tom Hill were down from Covelo yesterday.

Mr. and Mrs. J. C. Duffield and daughter, Miss Maxine, are passing the week in Yosemite Valley.

Ed Owens came up from Ukiah Sunday for a short visit.

Would Administer Druggist's Estate

Luther Hansen has filed petition for appointment as guardian of the estate of Charles H. Crawford, Ukiah drugstore owner. Sickness, which followed a recent stroke, has so undermined Mr. Crawford's health he is no longer able to attend to the details of his property holdings. He is now receiving treatment at the Veterans Home at Yountville.

PROPERTY SOLD

The J. V. Ray ranch on the Low Gap road has been sold to B. F. Jones, of Oakland. The property consists of 480 acres.

MILL OPENING RUMOR HEARD

Belief Is Mendocino Plant May Operate After July 1

(The Mendocino Beacon)

The rumored activity at the Mendocino Lumber Company's mill for the past week brought out many reports to the effect the Mendocino plant would start at once. In a measure the rumors are correct — there is increased activity on the Mendocino holdings, but they are all of a repairing nature. The electric motors are being checked and all machinery is being placed in working condition. The roads in the truck camp section are being repaired so they will be in condition in case the mill does start.

Expect To Open In July.

The repairs are being made at present so that, if conditions warrant, the mill and woods can be operated after the Fourth of July holidays.

FINDS RATTLERS TOO PLENTIFUL

Rattlesnakes are again making their presence known as evidenced at Hopland, where 11 were killed last week by J. Strauss while landscaping a grassy hillside of the Corona de Sierra ranch, where Mr. and Mrs. William B. Williamson hope to build this summer. Seven of the reptiles were killed in a single day. The Williamsons arrived Thursday from San Francisco for a stay of a week or so at their ranch.

Son Requests To Be Administrator

John Helela of San Francisco has filed for authority to administer the $3250 estate of his father, Andrew Helela, who died June 2. The estate includes 120 acres of farm lands and household and personal property. Heirs other than petitioner are a son and two daughters, Andrew Helela, Aberdeen, Wash., Elizabeth Ries, San Francisco, and Mary Markle, Fort Bragg.
